s Reviewed In Refuting Reckless Charges of Favoritism Toward Big Corporate Interests Made by Owsley Stanley-Will Not Enter Into Controversy With His Detractor-Points With Pride to Manner In Which Present Administration of Treasurer's Office Has Overcome Deficit Inherited From Republican Prede-

Thomas S. Rhea of Logan county, present state treasurer of Kentucky and late chairman of the Democratic state campaign committee, today makes announcement of his candidacy for his party's nomination, in the August primary election, for the office tering the race Mr. Rhea presents to the voters a brief review of his course as a member of the state board of valuation and assessment, the franchise tax board of the state, showing that that body has by unanimous action materially increased the assessment of all the large public service corporations, refuting the reckless charges made by Congressman Owsley Stanley that the board had been influenced in behalf of the corpora-

ship upon any legitimate industry. This hoard, with my active assistance, in the last three years, has increased the frantions of the state from \$48,000,000 to carried the question into the federal courts, where the cases are now pending for a decision. The favorable settlement of these cases in the courts together with the large increases from other corporations which are not contested, means a great boon to the taxpayers and a mo valuable increase in our revenues. In the four years of the present administration the increase of revenues from the assessments of those corporations, which have not contested increases, will amount to a sum to the state far in exess of \$1,000,000; and the increase of revenues from the same source to the counties, cities, towns and school districts of the state will amount to about \$2,000,000 for the same period. Should the courts sustain the action of the board in the raises made upon the four railroad companies I have referred to, it would add about \$1,000,000 more revenue to the state and about \$2,000,000 more to the counties, cities, towns and school districts in the same four years. Explains Single Attack.

Notwithstanding my well known record upon the board in these matters and my efforts to serve the best interests of the people by placing a larger and a just burden of taxation upon the corporations, one man alone in all the state has undertaken to criticise me about the work of the board, and to reflect upon my conduct in connection with it. O. Stanley, some time ago, in nouncing himself as a candidate for the omination for governor, with his usual disregard for the truth, made an attack upon me and sought to create the impression that the corporations had been too favorably treated by the board, and of auditor of public accounts. In en- that I and other gentlemen he mentioned The record and the facts completely disprove his insinuations or charges, and show that no franchise board in the history of Kentucky ever made such large increases in the assessments of corporations. Mr. Stanley can hardly plead ignorance of these facts, because they have been discursed in the press and the courts of the state a great deal in the last two or three years. I am not a candidate for the same office that he is seeking, nor do I propose to descend into a controversy with him and would not now mention him except for his wanton attack upon me. The people of Kentucky have learned to know him as la man utterly reckless and unreliable in his statements or in his charges against other men. The only criticisms that Mr. Rhea also reviews his course have ever been made about the work of this board have come from those who in the management of the state's have complained that we have raised the

MIDDLEBURG

A trip to Mintonville, the little mountain village at Green River knob, in the southern part of this knob, in the southern part of this county last week, revealed to us many changes since last we were there, some 30 years ago. New residences and business houses have taken the places of the old ones that stood there. Some of the old citizens who lived there at the time we who lived there at the time we speak of, have moved away, others have passed over the river. Only two remain, Madison McClure and Tyler Jasper. And they are considerably bent with age. Mr. Jasper sold goods there 40 years ago and has been postmaster for 35 years. The office there does not pay much salary and Mr. Jasper is much liked by the people, hence he has gone along undisturbed. His son, Col. Jasper is one of the leading merchants there now and seemed to doing a prosperous business. We spent the night with Mr. J. T. Jasper, who is one of the substantial citiznes of the town, and a mighty good man. He and Mrs. Jasper know exactly how to make one feel comfortable in their home. Bud Roy runs the village grist mill and is doing well. He was somewhat out of humor though, on account of the road. We tried to console him by telling him there was a good time coming and would probably arrive about June the first. On our return we stopped for a short while with Virgil Wesley at Joyce. Virgil is getting rich fast. He is farmer, merchant and postmaster, besides owning a half interest in the Joyce roller mill, which by the worst system of roads that it has ever been our lot to travel. Regardless of this fact however, they appear happy and contented, and we can account for it only on the ground that they have plenty to eat, live at home and broad at the same place.

From the way they are being exported from this country it seems that a good horse will soon be bringing the price of an automobile, says the Danville Messenger.

Rheumatism

Just put a few drops of Sloan's on the painful spot and the pain stops. It is really wonderful how quickly Sloan's acts. No need to rub it in-laid on lightly it penetrates to the bone and brings relief at once. Kills rheumatic pain instantly.

Mr. James E. Alexander, of North Harpswell, Me., writes: "Many strains in my back and hips brought on rheumatism in the sciatic nerve. I had it so bad one night when sitting in my chair, that I had to jump on my feet to get relief. I at once applied your Liniment to the affected part and in less then ten minutes it was perfectly easy. I think it is the best of all Liniments I have ever used."
